

DOD SBIR/STTR Programs Funding Agreement Certification

Small businesses that are selected for award must complete this certificate at the time of award. All questions must be answered and an authorized officer of the company must sign and date this certificate.

Please read the certification statements carefully. The information included in this document, in combination with the DoD SBIR/STTR Phase I or II Proposal Cover Sheet, will be used to determine a firm's eligibility for award under the DoD SBIR/STTR Programs. Definitions for terms used in this document are set forth in the Small Business Act (13 CFR Part 121), the Small Business Administration (SBA) SBIR and STTR Policy Directives, and statutory/regulatory provisions referenced within those authorities. Please note that similar documents will be utilized to ensure continued compliance at other times during contract performance.

If the Government Contracting Officer (CO) believes a business does not meet the size eligibility requirements at the time of award, the CO must file a size protest with the SBA. The SBA will then accomplish a size status determination with regard to eligibility. SBA may request supporting documentation and further clarifying information in the conduct of this determination. If, after award, the CO believes the firm no longer meets eligibility requirements, the CO may request supporting documentation and clarifying information to assist in verification of contractor information already received.

No information already provided to the Federal Government affects its right to pursue criminal, civil, or administrative remedies for incorrect or incomplete information provided in this document or on the Proposal Cover Sheet. Signatory authorities for this document may be prosecuted if false information is provided.
